

## Panel System - Wall Section

© 2012, Bautex Systems LLC. All rights reserved. Permission to download, possess, print, use, or reproduce this document is granted only to users that have agreed to Bautex' Terms of Use ([www.bautexsystems.com/terms](http://www.bautexsystems.com/terms)). This document is intended as a design aid only and subject to change without notice. You agree to have a registered engineer independently review your requirements and certify in writing that your plans, and your use of Bautex product or services, satisfy all applicable building codes, safety standards, and construction practices. You represent and warrant that you are not relying and will not rely upon any representation or statement from Bautex Systems or its personnel in determining whether, when and how to use a Bautex product; instead, you will rely solely on your own judgment and the advice you independently obtain from your own registered engineer and other licensed construction professionals.
